10:20-11:20: Panel discussion: Social Informatics and Epistemic Cultures

Invited scholars will be asked to reflect and consider the following questions:

- How do you see your work as bridging epistemic cultures and intellectual communities?
- What are the social and technological forces that enable and constrain connections between SI and cognate intellectual communities?
- What are some of the ways in which we can begin to establish and maintain connections among SI and cognate epistemic cultures and intellectual communities?
- What can a social informatics approach tell us about the nature of the boundaries among SI and cognate epistemic communities?
- What are the challenges and opportunities of engaging in this type of SI work?
